

PROGRAMS WITH PURPOSE

At Reptile Encounters our mission is to be a voice for those that don't have one. Our up close wildlife experiences create lasting memories and inspire students to take an interest in the natural world. Our goal is to create a generation of "Better Humans"!

Through our partnership with B1G1 (Buy1Give1), Reptile Encounters is embedding giving into our business and is committed to being a BUSINESS FOR GOOD. B1G1 does all the hard work by vetting projects around the world that are contributing to making the world a better place.

B1G1 selects projects that support the United Nations Sustainable Development Goals. In 2020 we will contribute towards the Goals by creating an IMPACT for every incursion we deliver into schools.

Inspiration. Education. Conservation.

Book Reptile Encounters Now

AUSTRALIAN REPTILES

This hands-on show will captivate students as they learn about the weird and wonderful characteristics of Australian reptiles. Everyone will have the chance to interact with spiny-leaf insects, frogs, turtle, shingleback lizard, dragon lizard, pythons, and even a crocodile. You won't believe your eyes!

Recommended for curriculum focus:

- » Australian animals
- » Living things have basic needs
- » External features

F-2

INSECTS & MINIBEASTS

Students will be amazed as they discover the creepy-crawly world of insects and minibeasts. Your class will meet a large range of Australia's native invertebrates as we move through the different groups, some of which can be found right in their own backyard! Meet insects, arachnids, crustaceans and myriapods, and learn about what makes them special!

Recommended for curriculum focus:

- » Reproduction
- » Classification
- » Structural Features

F-2

FEATHERS, FUR & SCALES

Students will learn the difference between feathered, furry and scaly creatures in this hands-on display of animal life. Everyone will get an up-close look at a hand-raised marsupial, rainforest parrot, freshwater turtle, shingleback lizard, monitor lizard, pythons, and even a crocodile! Learn about what they eat, where they live and more. Imagine the reaction!

Recommended for curriculum focus:

- » Observable Features
- » Classification
- » Ecosystems

3-4

STARS OF THE SEA

In this amazing show, students will get their hands wet learning about our fascinating marine life. Check out what lives in our very own Port Phillip Bay, and learn about why it is important to preserve our marine environment; sea stars, elephant snails, sea urchins, octopus, seahorse, spider crabs, puffer fish, stingrays, and even a Port Jackson shark. As much fun as a day at the beach!

Recommended for curriculum focus:

- » Marine animals
- » Rockpools & the Intertidal zone
- » Habitats

F-2

LIFE CYCLES

In this enlightening show we will discuss the life cycles of a range of animals including invertebrates, amphibians, birds, mammals and reptiles. Find out about the different stages of their development and the symbiotic relationships that exist. Let us take the stress out of educating your students about the 'birds and the bees'!

Recommended for curriculum focus:

- » Life Cycles
- » Stages of development
- » Environment

3-4

THREATENED & ENDANGERED SPECIES

This program aims to introduce students to some of Australia's most threatened and endangered wildlife. Explore why species become endangered, what needs to be done to save them and how everyone can help. Animals that will be discussed in the program include Growling Grass frogs, Mary River turtle, Yellow Spotted monitor, Red-tailed Black cockatoo, Spotted Quoll, Pilbara Olive python and Saltwater crocodile. An eye-opening experience!

Recommended for curriculum focus:

- » Survival of living things
- » Adaptations
- » Biodiversity

5-6

*ALL SHOWS CAN BE ADAPTED TO SUIT ANY YEAR LEVEL.

AQUALIFE

Are you a ResourceSmart School, interested in sustainability? We can help you get accredited. This program takes a close up look at the fascinating biodiversity that inhabits our local creeks, rivers and waterways. Learn interesting facts about mussels, yabbies, freshwater fish, frogs & reptiles! Bringing biodiversity into your classroom!

Recommended for curriculum focus:

- » Sustainability
- » Biodiversity
- » ResourceSmart Schools
