

Wildlife. Up Close.

**CONNECTING
AUSTRALIANS
TO NATURE**
@reptileencounters

At Reptile Encounters our mission is to be a voice for those that don't have one. Our up close wildlife experiences create lasting memories and inspire students to take an interest in the natural world. Our goal is to create a generations of Better Humans!

Through our partnership with BIGI (BuyIGive!), Reptile Encounters is embedding giving into our business and is committed to being a BUSINESS FOR GOOD. BIGI does all the hard work by vetting projects around the world that are contributing to making the world a better place.

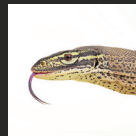

BIGI selects projects that support the United Nations Sustainable Development Goals. In 2022 we will contribute towards the Goals by creating an IMPACT for every incursion we deliver into schools.

EIGHT INTERACTIVE & EDUCATIONAL ENCOUNTERS

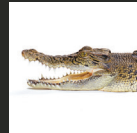

MEET THE RAINBOW SERPENT

Explore the oldest living culture on Earth!

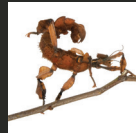

AUSTRALIAN REPTILES

Frogs, lizards & fierce predators!

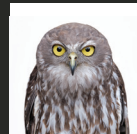

INSECTS & MINIBEASTS

Tree-dwellers, burrowers & more!

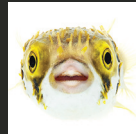

FEATHERS, FUR & SCALES

A variety of great Australian wildlife!

STARS OF THE SEA

Oceans, rockpools & marine inhabitants!

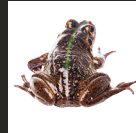

LIFE CYCLES

Journey through the stages of life

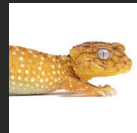

AQUALIFE

Freshwater sustainability & biodiversity

THREATENED & ENDANGERED SPECIES

Life on the brink of extinction

WILD SCHOOL EVENTS

Captivate audiences at your next special event with amazing Australian animals. Perfect for Science Week, School Fetes and End-Of-Year Programs. Choose from one of our educational wildlife shows and we can even turn it into an enchanting stage show!

BIRTHDAY PARTIES

Perfect for children from pre-school to early teens. Our birthday party shows give kids the chance to see, touch and feel a variety of Australian wildlife including crocodiles, frogs, snakes and lizards. We can come to you, or you can party at our Burwood Headquarters.

CORPORATE EVENTS AND INCURSIONS

Invite Reptile Encounters to your next corporate function, festival or shopping centre event. Spice up your product launch, staff party or cocktail function with the appearance of tame and friendly Australian wildlife. Birds, snakes, lizards, even crocodiles... A fun, unique and enthralling experience for people of all ages.

MEET THE RAINBOW SERPENT

Join our wonderful wildlife ambassadors in this exploration of the deep culture of the traditional custodians of the land we live on here in Australia. Aboriginal people have cared for their environment for 100,000 years. Learn about how they live alongside the land, about their totem animals, be absorbed in dreamtime stories and examine which animals they depended upon for their survival. Meet a possum, red-tailed black cockatoo, turtle, blue tongue, goanna, woma python, saltwater crocodile and even the majestic rainbow serpent.

Recommended for curriculum focus

- Connection to country/place
- Dreamtime stories
- Interactions between organisms

ALL

AUSTRALIAN REPTILES

This hands-on show will captivate children as they learn about the weird and wonderful characteristics of Australian reptiles. Find out why lizards poke out their tongue, why turtles hide in their shell and how many teeth a crocodile has! Everyone will have the chance to interact with spiny-leaf insects, frogs, turtle, shingleback lizard, dragon lizard, pythons and even a crocodile. You won't believe your eyes!

Recommended for curriculum focus

- Australian animals
- Living things have basic needs
- External features

F-2

INSECTS & MINIBEASTS

Students will be amazed as they discover the creepy-crawly world of insects and minibeasts. Your class will meet a large range of Australia's native invertebrates as we move through the different groups, some of which can be found right in their own backyard! Meet insects, arachnids, crustaceans and myriapods, and learn about what makes them special!

Recommended for curriculum focus

- Reproduction
- Classification
- Structural Features

F-2

INSPIRATION. EDUCATION. CONSERVATION. INSPIRATION. EDUCATION. CONSERVATION

1300 4 CROCS

FEATHERS, FUR & SCALES

Students will learn the difference between feathered, furry and scaly creatures in this hands-on display of animal life. Everyone will get an up-close look at a hand-raised marsupial, rainforest parrot, freshwater turtle, shingleback lizard, monitor lizard, pythons, and even a crocodile! Learn about what they eat, where they live and more. Imagine the reaction!

Recommended for curriculum focus

- Observable Features
- Classification
- Ecosystems

3-4

STARS OF THE SEA

* Livestream only

In this amazing show, children will get a look under the ocean, learning about our fascinating marine life. Explore the rockpools and find out why sea urchins have such sharp spines, how pufferfish puff up and why the male seahorse is such an amazing dad! Discover what lives in our very own Port Phillip Bay; sea stars, elephant snails, sea urchins, octopus, seahorse, spider crabs, pufferfish, stingrays, and even a Port Jackson shark. As much fun as a day at the beach!

Recommended for curriculum focus

- Marine animals
- Rockpools & the Intertidal zone
- Habitats

F-2

LIFE CYCLES

In this enlightening show we will discuss the life cycles of a range of animals including invertebrates, amphibians, birds, mammals and reptiles. Find out about the different stages of their development and the symbiotic relationships that exist. Let us take the stress out of educating your students about the 'birds and the bees'!

Recommended for curriculum focus

- Life Cycles
- Stages of development
- Environment

3-4

THREATENED & ENDANGERED SPECIES

This program aims to introduce students to some of Australia's most threatened and endangered wildlife. Explore why species become endangered, what needs to be done to save them and how everyone can help. Animals that will be discussed in the program include Growling Grass frogs, Mary River turtle, Yellow Spotted monitor, Red-tailed Black cockatoo, Spotted Quoll, Pilbara Olive python and Saltwater crocodile. An eye-opening experience!

Recommended for curriculum focus

- Survival of living things
- Adaptations
- Biodiversity

5-6

AQUALIFE

Are you a ResourceSmart School, interested in sustainability? We can help you get accredited. This program takes a close up look at the fascinating biodiversity that inhabits our local creeks, rivers and waterways. Learn interesting facts about mussels, yabbies, freshwater fish, frogs & reptiles! Bringing biodiversity into your classroom!

Recommended for curriculum focus

- Sustainability
- Biodiversity
- ResourceSmart Schools

5-6
